NEW KSSB REAGENT FOR IMPROVEMENT OF
CLAY SOLUTIONS QUALITY. [1960] 5p.
Order from LC or SLA m\$1.80, ph\$1.80 60-16950

Trans. of Neftyanoye Khozyaystvo (USSR) 1959, v. 37,
no. 7, p. 32-35.

By well drilling with KSSB treated clay solution, the
high efficiency of this reagent in decrease of water
separation from clay solution was confirmed; the
assigned clay solution parameters were easily kept
during the drilling and no additional time expense for
solution treatment after instrument lowering was
required. (Author)
